Rio Hondo College

KEY ACHIEVEMENTS

Membership PowerBi Dashboard

Pull together data from various sources to build a dashboard that contains all of SEMA memberships data in one place, allowing interactive visualizations for leadership to make data driven decisions.

SEMA+ Program

Launch SEMA+, a B2C product that caters to automotive enthusiast, generating additional revenue, advocacy awareness, and community.

AI Lead Database

Utilized AI to build a database of influencers, car clubs, and nonmember companies to expand SEMA marketing outreach efforts.

Benefit Learning Challenge

Develop internal learning challenges with Panda Restaurant Group benefits to boost benefit utilization and continuous learning to all organization associates.
